

Pump Supply and Maintenance

Drain Control are the leading independent drainage company in the south east of England. Our specialist Pumps Division supply, maintain and repair most major brands and types of pumps.

A highly skilled and experienced team will manage projects of any size from major housing developments to domestic swimming pools and sewerage systems. We maintain and repair all makes and types of pump and other related plant and fluid handling equipment.

Because we are independent and not tied to a particular manufacturer we can supply the best equipment at the most competitive prices to our clients.
